For what Board or Commission are you applying?

General Plan Citizens Committee

Briefly explain why you are interested in serving on this Board(s) or Commission(s):

The city's inspiring plans to revive the economic, social and cultural lives of Fresno are both timely and important. Today, Fresno presents an edifying example of human, social and economic opportunity. I am intrigued by the opportunity to participate in the discussions on the General Plan (and the Development Code) Update. To this discussion, I hope to bring years of research (in higher education) and practice (in the U.S and internationally) on a range of experiences: from economic and business development, to urban/rural revitalization, city planning (transportation, infrastructure) and environmental quality and sustainability.

Do you or an immediate family member have any professional or financial relationship that may present a potential conflict of interest for this board, commission or similar body?

For what Board or Commission are you applying?

General Plan Citizens Committee

Briefly explain why you are interested in serving on this Board(s) or Commission(s):

I have a deep desire to serve my community and make Fresno a better place to live for all its residents. When I was the Dean's Medalist for the Craig School of Business at California State University, Fresno, the subject of my commencement speech was the need for the graduating class to stay here, in our community, and to use our skills and education to make Fresno a better place. I am committed to that philosophy and my actions provide evidence to my credo.

Since then, I have attained my Law Degree and Masters in Business Administration

("MBA"). The emphasis in my law practice is business application oriented. In the community of Fresno, I am involved in several business related projects including the opening of the first Hispanic owned Business Incubator in the United States.

Since attaining my MBA (where Tom Burns, Manager of Graduate Programs for the Craig School of Business can attest to my work ethic and intelligence), I have developed invaluable relationships with Christine Nutting, Associate Director at the Office of Community and Economic Development; Kirk Nagamine at the Central Valley Business Incubator; and Lee Ann Eager, Chief Operating Officer at the Economic Development Corporation, while pursuing my interests in community development.

My mentor, Uncle Roger Palomino, was the Executive Director of the Fresno County Equal Opportunity Commission. Through him I cultivated my desire to help those in my community better themselves. My investment in this community is not transparent, and not a fleeting one, as exhibited by the fact that I was born here, educated here, married here, and raising my family here.

I hope to be chosen for this committee by our Mayor. It would be honor to work on this committee and my contributions will be both insightful and provided in the best interest of all our current citizens and for future generations.

Do you or an immediate family member have any professional or financial relationship that may present a potential conflict of interest for this board, commission or similar body? No.

For what Board or Commission are you applying?

General Plan Update Committee

Briefly explain why you are interested in serving on this Board(s) or Commission(s):

The general plan is the blueprint for community growth for the next 20 years. Important decisions how the city will grow and how will services be provided are incorporated into the general plan. Having grown-up in Fresno and seeing sometimes haphazard development that does not represent good planning there needs to be a focussed general plan.

Do you or an immediate family member have any professional or financial relationship that may present a potential conflict of interest for this board, commission or similar body?

I have represented in construction defect litigation some developers and contractors. who had been sued as defendants Such representation was through insurance obtained by the developers/contractors. I do not represent such entites in CEQA litigation or transactional matters.
